

HORROR 20 FEST 24 INTERNATIONAL

VENUE: The historic Electric Theater ([68 E. Tabernacle St. in St. George, UT, 84770](#))

TECH SPECS: The Electric Theater is a historic venue. It has been in the Southern Utah area for over a century. The venue uses an Eiki 6000 Lumen HD Cinema Projector. The projector uses 10-bit color depth, displayed on a 20-foot screen. Due to the venue being a multi-use space, the theater uses stereo sound on a 32-channel board to host a wide variety of events. There are 300 seats, including a balcony. ***DCP may be available for next year!***

FILMMAKERS: As far as what we need from our filmmakers;

- **CODEC FILE:** A high-quality HD version of your film in mp4 or .mov (Please try and keep files under 40GB)
- **AUDIO:** Stereo sound is ideal.
- **SUBTITLES:** If your film is subtitled, please make sure they are burned into the file.
